UNRESERVED AUCTION SALE

The herd is regrettably being dispersed due to auto accident in which Elmer was seriously injured late in October. Suitable farm help is not available, forcing this untimely dispersal. The herd is at its peak of breeding strength and potency. Under the circumstances it has not been possible to make any preparation in advance and many of the cattle in their working clothes will be thin. The results of the breeding program will be in evidence in the younger cattle and this sale provides the opportunity to secure females only available on rare occasions in complete dispersal. The health standing of the cattle is excellent and the females regular breeders. The herd has many achievements to its credit and the owners cordially invite you to be with them sale day.
